

2011000105030001
EXAMINATION MARCH 2024
BACHELOR OF COMPUTER APPLICATIONS
(FIFTH SEMESTER)
NETWORK TECHNOLOGIES (503)

[Time: Three Hours]

[Max. Marks: 70]

Instructions:

1. Fill up strictly the following details on your answer book

- a. Name of the Examination: **BACHELOR OF COMPUTER APPLICATIONS (FIFTH SEMESTER)**
- b. Name of the Subject: **NETWORK TECHNOLOGIES (503)**
- c. Subject Code No: **2011000105030001**
2. Sketch neat and labelled diagram wherever necessary.
3. Figures to the right indicate full marks of the question.
4. All questions are compulsory.

Seat No:

--	--	--	--	--	--

Student's Signature

Q.1 Choose the correct answer

10

1. _____ Layer ensures no duplication of data packets.
a. Network b. session c. transport d. physical
2. An NFS allows a computer to access and use files over a network. What does the acronym? NFS stand for?
a. network file system b. network file search
c. new file system d. new file search
3. Which layer in the OSI model provides the data transfer in the form of frames across The Transmission link?
a. physical layer b. data link layer
c. network layer d. application layer
4. Physical or logical arrangement of network is _____.
a. topology b. routing c. networking d. control
5. Which network topology requires a central controller or hub?
a. star b. mesh c. ring d. bus
6. The network topology is categorized into _____ types?
a. One b. two c. three d. four
7. Full form of SPANC.
a. smart plan adhoc network b. spaceplan adhoc network
c. smartphone adhoc network d. spacious provide adhoc network

8. _____ Protocol is not reliable for transferring data.
a. UDP b. TCP c. SCTP d. IP
9. What is the full form of SSL?
a. simple secure layer b. secure simple layer
c. secure socket layer d. simple socket layer
10. What is repeater?
a. network device b. software
c. computing device d. calculating device

Q.2 Answer the following (Any 4)

24

1. What is MANET? Explain its types.
2. Explain different types of network.
3. Explain hub and switch.
4. Define Network. Explain its advantage and disadvantages.
5. Explain OSI model.
6. What is Email? Explain SMTP protocol in detail.

Q.3 Answer the following (Any 4)

24

1. Explain IP address with its class.
2. What is the difference between http and https?
3. Explain concepts of SSL, TCP, and FTP.
4. Explain working of Email.
5. Define URL and explain its types.
6. Explain Ring physical and logical topology.

Q.4 Write short note on (Any 2)

12

1. Guided transmission media
2. TCP vs. UDP
3. Internets vs. Intranet
